An Information-Theoretic Approach to Neural Computing : 1st Springer-Verlag New York, Inc. Secaucus, NJ, USA 1996 ISBN:0387946667

[An Information Theoretic Approach to Neural Computing](#)

Neural networks provide a powerful new technology to model and control nonlinear and complex systems. In this book, the authors present a detailed formulation of neural networks from the information-theoretic viewpoint. They show how this perspective provides new insights into the design theory of neural networks.
