

STRATEGY AND ARCHITECTURE OF HEALTH CARE INFORMATION SYSTEMS%0A

[Strategy and Architecture of Health Care Information Systems](#)

Over time, health care information systems have evolved, moving through several different phases of technology. These phases roughly correspond to the phases of the

[Strategy and Architecture of Health Care Information Systems](#)

Information technology constantly changes and quickly becomes obsolete. The methodology of planning and implementing a health care information system, however, is more constant. Through practical, step-by-step guidelines, the author demonstrates how to establish the strategy and architecture against which vendor and system decisions must be made.
