

THE DIVISOR CLASS GROUP OF A KRULL DOMAIN

[The Divisor Class Group of a Krull Domain Request PDF](#)

In this chapter the divisor class group of a Krull domain is introduced and its functorial properties are investigated. Two applications of the functorial properties are made to polynomial extensions and subintersections (cf. Proposition 1.2d). Power series extensions are considered in a later section.

[The Divisor Class Group of a Krull Domain Robert M](#)

There are two main purposes for the writing of this monograph on factorial rings and the associated theory of the divisor class group of a Krull domain. One is to

[The Divisor Class Group of a Krull Domain eBook 1973](#)

There are two main purposes for the writing of this monograph on factorial rings and the associated theory of the divisor class group of a Krull domain. Thus, in treating the group of divisors and the

[Krull ring Wikipedia](#)

A (Weil) divisor of a Krull ring A is a formal integral linear combination of the height 1 prime ideals, and these form a group $D(A)$. A divisor of the form $\text{div}(x)$ for some non-zero x in A is called a principal divisor, and the principal divisors form a subgroup of the group of divisors.

[Divisor class group Encyclopedia of Mathematics](#)

The quotient group of the group of divisorial ideals (cf. Divisorial ideal) of a Krull ring by the subgroup consisting of the principal ideals. The divisor class group is Abelian and is usually denoted by Cl . The group is generated by the classes of the prime ideals of height 1 in (cf. Height of an ideal).

[Krull domains and class groups University of Georgia](#)

Krull domains and class groups. In algebraic geometry one meets both the Picard group and the divisor class group. In favorable situations these two groups coincide especially, they coincide. for nonsingular algebraic varieties but in general they are distinct and the dis-
